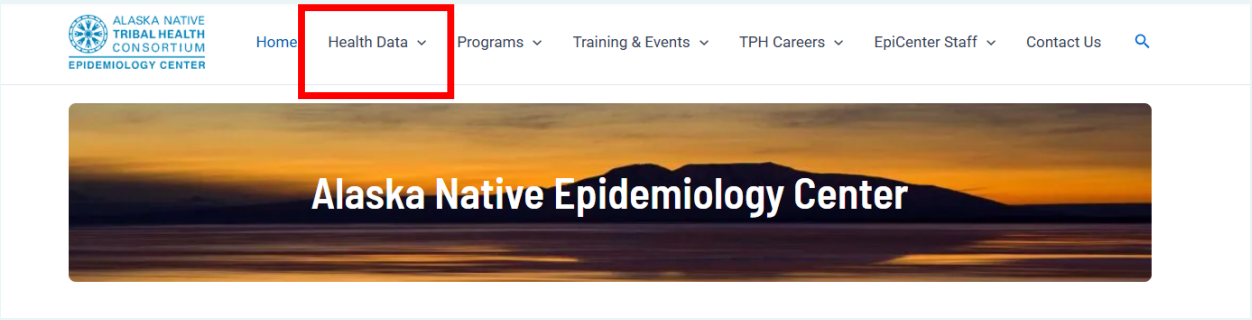
HOW TO GUIDE:

Accessing health data for your community in the Alaska Native Epidemiology Center Regional Health Profiles Data Dashboard

STEP 1: Getting to the Dashboard

Navigate to epi.anthc.org and choose “Health Data > Data Dashboard” from the tab menus at the top. Once you are on the dashboard page, you can click the “Regional Health Profiles” dashboard title to get a full screen view.



STEP 2: Creating a Summary Table

For a summary table of data for your region, select the “Overview” tab in the blue bar. From the Tribal Health Region dropdown at the top, select your region.

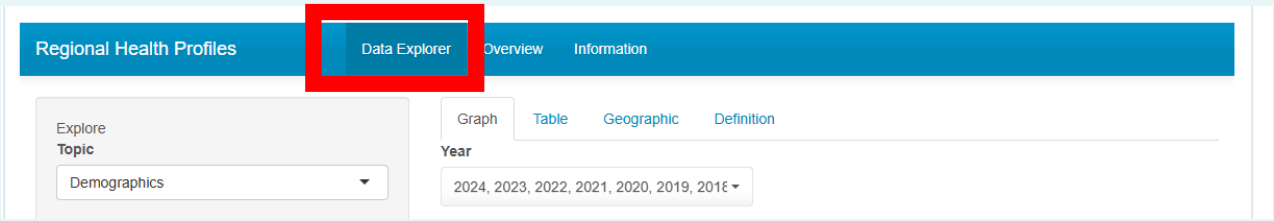
You can leave “Alaska” selected to get a snapshot of your region compared to Alaska, or you can deselect Alaska to look at only your region. You can choose to display ANAI only or Non-ANAI as well.

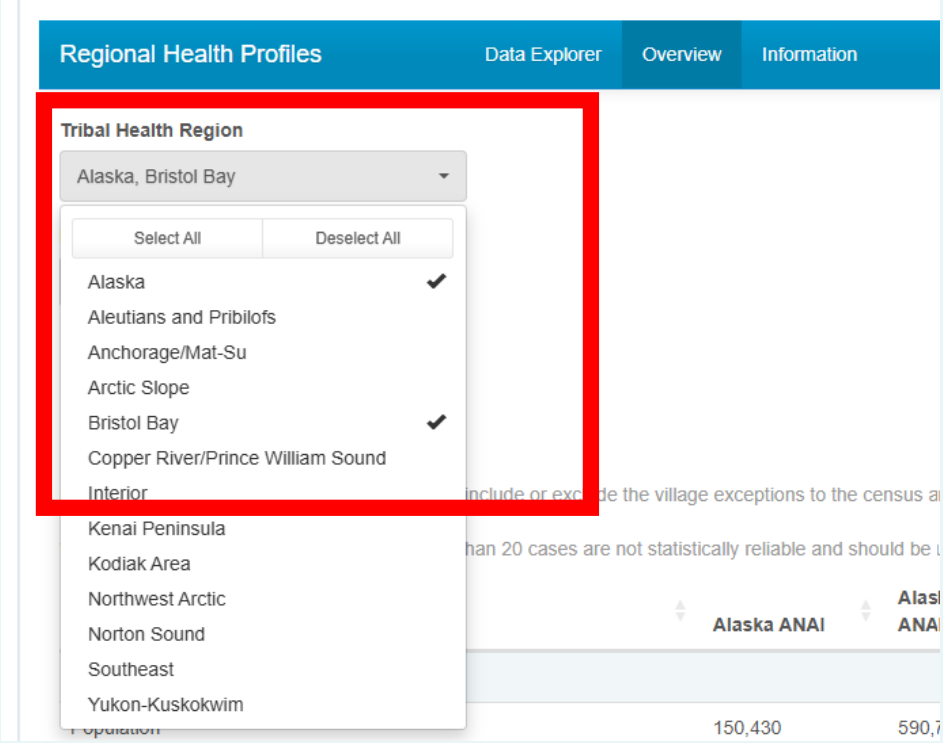
ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
EPIDEMIOLOGY CENTER

Scan the QR code to visit the EpiCenter Data Dashboard

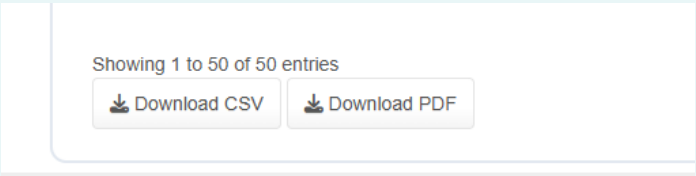
epi.anthc.org/data-dashboard

Use this overview table to view the most recent available rates and counts for all health indicators in the dashboard, based on the selected Tribal Health Region and race groups.





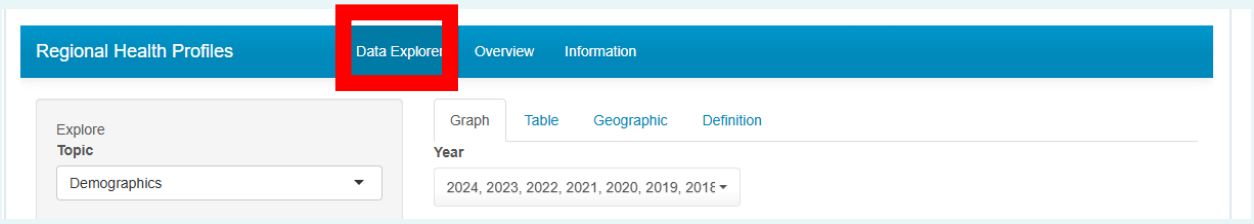
At the bottom of the table, you can choose to download the table (either as a CSV to use the data internally, or as a PDF to share directly).

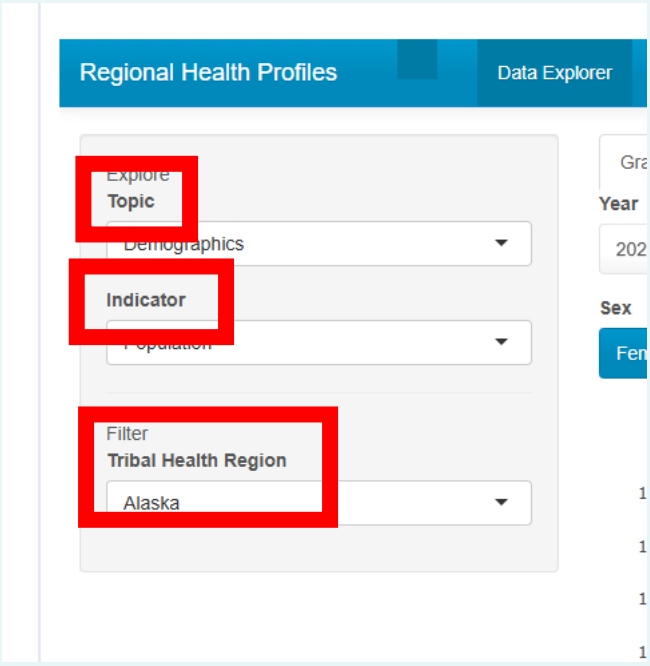


STEP 3: Data Visualizations

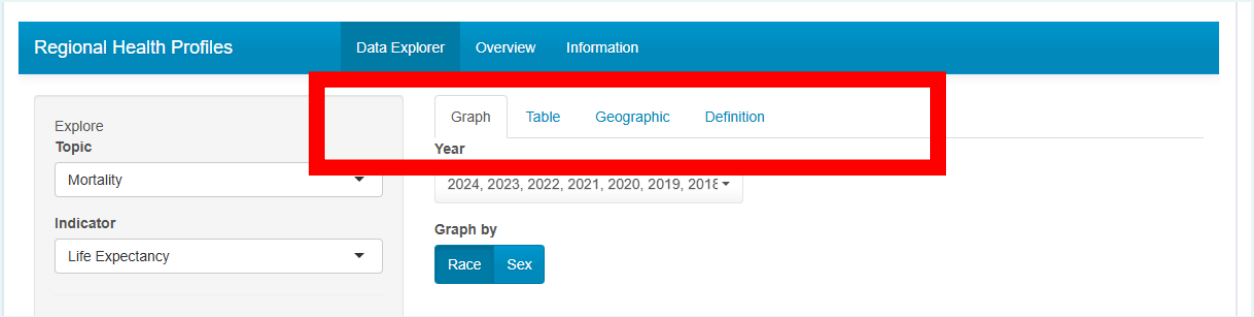
Select the "Data Explorer" tab in the blue bar. Select a Topic and Indicator you are interested in. Select your Tribal Health Region in the Filter dropdown.

How To Guide: Accessing health data for your community in the Alaska Native Epidemiology Center Regional Health Profiles Data Dashboard





For a graph, select the “Graph” tab below the blue bar. For a table, select the “Table tab. For a map, select the “Geographic” tab. For more information about the Indicator, select the “Definition” tab.



When your visualization is selected, you will have the option to choose which years you want to see.You also may have the option to stratify by sex and race if available which will give you the ability to view ANAI only or both ANAI and Non-ANAI. Different Indicators will have different data visualization features available to use. We encourage you to explore each health indicator to view all of the detailed metrics available for your region. If you need help, you can reach out to us!

Once you have selected a visualization that you may want to share and use in a presentation or a report, you can download a graphic by selecting the camera icon at the top of the picture when you hover over it. You can also download a PDF of the graphic which will include a correspondingtable, indicator definition, and other information by selecting “Download PDF” at the bottom of the chart.
